APPROVED OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 27837 Certificate 8884 is issued subject to the terms and conditions imposed in said Permit 27837 Certificate 8884 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Any well drilled under Permits 27533, 27837, 29616, 30702, 58761 and 58764 (one well) shall be plugged in accordance with the Nevada Administrative Code, Chapter 534.420, "Regulations for Water Well and Related Drilling" within 60 days from the issuance of this permit. Records show that there will be no water right remaining in the well after issuing Permits 61900 through 61903.

The issuance of this permit totally abrogates Permit 27837, Certificate 8884.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.028 cubic feet per second, but not to exceed 15.30 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

June 27, 1999

Proof of completion of work shall be filed before:

July 27, 1999

Application of water to beneficial use shall be filed on or before:

June 27, 2002

Proof of the application of water to beneficial use shall be filed on or before:

July 27, 2002

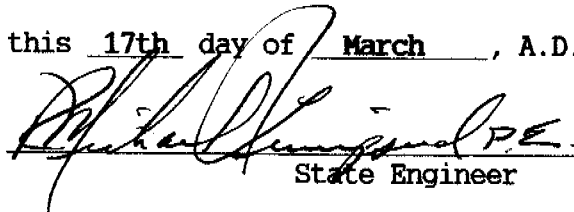

Map in support of proof of beneficial use shall be filed on or before:
